Terry's Story

At the age of 18, Terry Fox was diagnosed with osteogenic sarcoma and was forced to have his right leg removed. Determined to help others suffering from cancer, he decided to run across Canada, running a marathon a day for 143 days, to raise funds for cancer research. Unfortunately, Terry's cancer returned, and he was forced to end his Marathon of Hope, but his legacy had only just begun.

Today, the future of cancer research is very bright. The Terry Fox Foundation funds a variety of different cancer research projects such as lung, breast, ovarian, colorectal, pediatric, prostate, brain and blood. With your support, we will continue to make a difference in the fight against cancer. Please join us to support cancer research while building incredible school spirit for all our students. Thank you in advance for your support!
