

Boosting Your School's Fundraising - Employer Matching Gifts

Your donation could be worth twice as much!

Many Canadian employers offer donation matching programs, meaning they'll match your donation amount and help your child's school raise even more for cancer research.

When making your online donation, you will see the option to enter your employer's name to see if they participate in a donation matching program. If they do and appear in the list displayed, you can select them to be invited to match your contribution, turning one act of generosity into double the impact!

Note - Employer matching gifts won't appear on your school's fundraising page as they are processed separately and sent directly to The Terry Fox Foundation at a later date. Once received, these matching funds are added to your school's overall fundraising total.

Here are the steps to select an employer to match your donation:

1. Find your school's fundraising page by clicking the link provided to you or go to terryfoxschoolrun.org and click "**Find A School**" to find your school page.
2. Click "**Donate**" on your school's fundraising page.
3. Enter the amount of your donation, your email, a student name (optional) and phone number.
4. Proceed to the "**Double Your Donation**" section and enter the name of your employer. If your employer is on the list, select them and continue with the process. Your employer will receive notification of your donation and a request to match it. Please note some employers set a maximum amount of their match gift, regardless of the size of your donation.
5. Matched donations from employers are added to school fundraising totals approximately 1-2 months after the employer transactions have been received and processed.
